

FISCAL YEAR HISTORICAL REPORTS INFORMATION

October 22, 2012

by
Erin Mosley (*Statistician*) and
Tammy Collins (*Data Analyst*)

All data has been obtained from the KYCourts/CourtNet database. The following is a list of reports and what they contain. Data provides either a county by county breakdown or a statewide summary. Case counts cannot be inferred as a count of individuals as some individuals may have multiple cases. A one-to-one match cannot be made between cases filed and cases closed as some cases may be disposed in a year subsequent to when they were filed.

Not all case types will exist in each county or fiscal year examined within the data sets. Blanks within the data should not be considered missing data but instances in which cases did not occur.

- 1) INS010 – Provides the total number of Circuit Family Court cases filed by case type, with an overall total provided as well.
- 2) INS011 – Provides the total number of Circuit Court cases filed by case type with an overall total provided as well.
- 3) INS012 – Ranking of Circuit Court caseloads based upon the number of cases filed per county and the number of cases closed per county.
- 4) INS013 – Provides the total number of District Court cases filed by case type for each county; with an overall total provided as well. Case filing types include civil, disability and health, domestic violence, felony, juvenile, misdemeanor, probate, small claims, traffic, and Uresa/Uifsa.
- 5) INS013p – Provides the total number of District Court cases filed by case type (felony, traffic, & misdemeanor) that contained a pre-payable citation. Not all case types will have a pre-payable citation charge in all counties.
- 6) INS014 – Ranking of District Court caseloads based upon the number of cases filed per county and number of cases closed per county.
- 7) INS015 – Circuit Court caseloads by Circuit. Provides the average number of cases filed and closed by taking the total number filed or closed and dividing by the number of judges that preside over that Circuit.
- 8) INS016 – Provides a statewide summary of the total number of specified cases filed and closed within District Court. Case filing types include civil, disability and health,

domestic violence, felony, juvenile, misdemeanor, probate, small claims, traffic, and Uresa/Uifsa.

- 9) INS016p – Provides a statewide summary of the total number of District Court cases filed by case type (felony, traffic, & misdemeanor) that contained a pre-payable citation. Not all case types will have a pre-payable citation.
- 10) INS017 – Provides a statewide summary of the data presented in report INS011.
- 11) INS018 – District Court caseloads by District. Provides the average number of cases filed and closed by taking the total number filed or closed and dividing by the number of judges that preside over that District.
- 12) INS019 – Circuit Family Court caseloads by Family Court site. Provides the average number of cases filed and closed by taking the total number filed or closed and dividing by the number of judges that preside over that Family Court site. Data pertains only to counties that have a Family Court, not all counties currently have a Family Court.
- 13) INS020 – Provides a statewide summary of the data presented in report INS010.
